

# previbalm

take care!

## High-quality skin-care balm

A natural broad-spectrum skin care ointment in handy hook bottle.

### previbalm – first-class udder care

- previbalm is an intensive skin care ointment containing a high amount of peppermint oil which is invigorating and stimulates the tissue's blood circulation. Two further herbal components soften the skin and protect its surface.
- previbalm nourishes and rejuvenates the skin in cases of swelling, redness, hardening etc.
- previbalm supports the animal's immune system by improving the blood circulation.
- previbalm contains peppermint oil. Its cooling effect supports animal health, the skin tissue regains its natural resistance to germs.

### Ingredients
