

Clean Silent

agricultural stretch film in a class of its own

- guaranteed real run length and 25 μ
- optimum adhesion without adhesive
- 100 % food safe
- 15 months UV-stable

Clean Silent

agricultural stretch film in a class of its own

7-layer technology

Everything runs round or square with the **Clean Silent**. **DUO Plast AG** is the only manufacturer that uses the latest 7-layer blowing technology completely **adhesive-free** agricultural stretch film produced in Germany in certified food quality. **Clean Silent** is made from high-quality raw materials and is regularly checked in our own laboratory. This guarantees a constant **top quality**.

Quality and benefits

- adhesive-free, 100 % food safe
- guaranteed real run length
- 15 months UV-stable (Northern and Central Europe)
- silent application
- guarantee strength 25 μ
- excellently suitable for wrapping round and square bales on all common wrapping machines
- high tear and puncture resistance
- highest yield – stretchable to over 90 %
- best adhesion – perfectly sealed film layers and dense bales, easy handling due to non-adhesive outer cover
- best colouring and opacity of the film
- no adhesive deposits on the rollers of the winder
- tear tab with measuring tape to check the pre-stretch

The versions

- colours: white, light green and moss green

DUO	Strength μ	Width mm	Length m	Roll/pallet
Clean Silent	25	500	1.800	36
		750	1.500	30
